CIRCUMSTANTIAL EVIDENCE. To prove the uncertainty of circumstan

tial evidence a story is often told of an honest citizen who, passing near a clump of woods and hearing cries of pain, ap proached to find a man upon the ground eltering in blood. In his breast was thrust a knife which he was feebly trying to remove. The good Samaritan knelt beside him and drew the knife from the in his head. But public safety calls for a wound. While he still held it in his hand a closer grip on the Flushing lunatics. crowd of people arrived and he was ar rested for murder. He had no defense that a jury would believe. He was found lean ing over the body of his victim, with the blood-stained knife grasped in his hand, and upon him was the victim's blood. He was convicted and executed. The arrest of ALFRED BOTZ, a negro hod

arrier, on Saturday night, is very similar to the instance quoted above. He had been any other use. spending the evening with a friend, and on his way home passed the corner of Ninety sixth street and Park avenue. There he saw a woman bleeding from a wound in her investigating the Board of Electrical Conneck. She asked him to call a policeman. trol There was none in sight, and, seeing that she was badly hurt, the negro helped her to a neighboring drug store, where she died without making any explanation as to how she received her injury. The examination of the wound showed

that it had been inflicted by a razor. The police were called in and Borz told his story. He was questioned in detail, and not being bright, and perhaps flurried by the unusual circumstances, contra dicted himself. He was locked up on suspleion of being the murderer. The woman's body was taken to the Morgue, and twentyfour hours later was identified by one who had heard that three days before another attempt had been made to on the jury." kill her. This person gave the name of the would-be murderer. He was arrested and in his possession a razor was found Whether or not it will be proven that this man did the killing, his arrest and the good character of the hod-carrier will be the means of saving the latter from the electrical chair.

Circumstantial evidence must have great bearing in all capital cases, because when a murder is committed the murderer takes care that there shall be no witnesses to the deed. The strongest cine that then can be o'tained is motive, and the wacreabouts of the suspected person about the time the crime was committed Yet this evidence must be considered with great care and judgment, for it is very apt to produce mistaken conclusions. Where a man's life depends upon it the position of the jury which is trying him is delicate indeed, for nothing can be more serious than the inflicting of the death penalty upon an innocent man.

A CONGREGATION ON STRIKE.

There is a singular strike in progress in Elizabethport. It is that of the Fulton Street Methodist Euleconal Church congregation against the Bishop and the Presiding Elder of the Newark Conference. It is not probable that the New Jersey militia will be called upon to quell the trouble, but affairs did look blue yesterday for that portion of the church militant immediately concerned since the sexton refused to ring the bell and the choir refused to sing, while of a big congregation only about thirty people attended the services.

The trouble is due to the fact that the eburch asked for the Rev. W. E. SIMPSON se pastor, and, in the wisdom of the Conference, got the Rev. G. H. Journston instead. The latter thus becomes the innocent victim of a wrath which he would have been more than willing to escape, since his choice and expressed desire was to go to another pulpit to which another congregation was as anxious to welcome him as were the Elizabethport people to greet the Rev. Mr. Simpson. Mr. Journton hopes to adjust matters am en bly, and it is indeed to be sincerely desired that the disappointed flock to which he has been sent may, before another Sun day, come to see and repent of the really unjust treatment to which it is subjecting him. To be righteously indignant at the slighting of an apparently reasonable wish is perhaps excusable, but Authors are entitled to a full right on the titles it is a question if the Elizabethport conit is a question if the Elizabethport congregation has taken a becoming method of demonstrating its disapproval.

THE EVENING WORLD exhorted good theatrical people to be kind to Joseph Arthur and not pester aim aloud engagements in an allegal forthcoming production at Niblo's, of which Mr. Joseph Arthur professed to be absolutely ignorant. It appears, however, that the woods are full of Arthurs—not of Joseph Arthurs, though—and that there is to be a forthcoming production at Niblo's called "The Beautiful Slave," nominally gotten up by a person known to a few select friends as A. F. Arthur. It is said that this individual in reality represents charles R. Gardiner, who, for some reason or other, down on wish to appear in connection with the enterprise. Mr. Gardiner, whom many actors remember, has been responsible for "Only a Farmer's Daugnier." He directed the starring tour of Miss Blanche Curtisse, and is now attending to that of Miss Lee Lamar, who will be the femiline attraction in "The Beautiful Slave."

Primrose and West's Minstrels will invade the Columbus Theatre, Hariem, next week, which will be the first time such an organiza-tion has been seen at the other end of the i-land. The Academy of Music will be closed next week, the management having discovered that it will be more profitable to shut up the house than to drag on snother week of "Old Homestead." Uncle Denman did not follow lidwer's advice and depart while he was still popular. He waited, alas! and the public dropped away. The closing of the Academy will permit of rehearsals of "Home, Sweet Home."

Arthur Dacre, who came to this country as Mra. Carter's leading man and who was discharged by that is by a manager, E. D. Price, is to have a benefit. A number of leading managers and actors are indignant at the manner in which, they claim, Mr. Price freated Mr. Daore. Next week Miss hather plays in Brooklyn, and her long and interesting season will close. "Joan of Arc" has been a great success, and it has been so attenuously clamored for that she will probably present it next season.
